ANANYA SEN

As an environmental stakeholder, I am always looking for ways to ensure responsible stewardship towards the natural resources. I am committed to sustainability on both an individual and community level. I am passionate to bring a positive social impact, through my research, network, sharing and learning.

Ananya Sen

SKILLS

Programming

Matlab
Bash
Python
Linux Script
QGIS
ArcGIS
LaTeX
Office

Operating Systems

Linux
MacOS
Windows

Software & Tools

Visualisation
Remote Sensing and GIS, Image processing, Ability to work on large spatio-temporal data. (e.g. matplotlib, grads, ...)

Data handling/analysis
(e.g. cdo, numpy, pandas, ...)

Data handling Skills

Portable Sensors, Satellite Data, netCDF, GRIB, CMIP6

Modelling Skills

WRF model, ROMS Model, HYSPLIT Model, Gaussian Plume Model

Technical Skills

Colocation and calibration analysis, Statistical techniques, model validation, Weather forecasting and chart interpretation

Languages

Hindi
English

WORK HISTORY

2023
Project Associate
IIT Kanpur
Ambient Air Quality Monitoring using Indigenous Technology (AMRIT) project for Centre of Excellence, ATMAN (Advanced Technologies for Monitoring Air-quality iNdicators) under the supervision of Prof. Sachidanand Tripathi

04/2022 - 04/2023
Master's Degree Thesis
IIT Bhubaneswar
Air Quality and Stagnation over India: A Comprehensive Analysis" under the supervision of Dr. V. Vinoj

EDUCATION

2021–2023
Indian Institute of Technology (IIT) Bhubaneswar, Bhubaneswar
Master of Science
Atmosphere and Ocean Sciences, 9.61 CGPA (Batch Topper)

2018–2021
University of Lucknow, Lucknow
Bachelor of Science
Geology, Physics and Mathematics,83.02

PUBLICATION

- Sen, Ananya, V. Vinoj. (2023). Air Quality and Stagnation over India: A Comprehensive Analysis. (under preparation)
- Sen, Ananya, V. Vinoj. (2023). Long-term trends in the Air Stagnation Days over India (under preparation)
- Sen, Ananya, V. Vinoj. Air Quality and Stagnation over India: A Comprehensive Analysis. In Changing Dynamics of Arid Region and impact on Weather and Climate of Indian Subcontinent, Tropmet-2023.Jaipur, Rajasthan, India (Abstract Submitted)

VOLUNTEERING

- Student Placement Coordinator, MSc Atmospheric and Ocean Sciences, I assisted in coordinatoin of on campus recruitment for graduating students
- Associate Director for the Marketing and Research, Girl Up Heron UN Foundation, oversaw management of initiatives to expand women and girls access to education, employment and healthcare.

LEADERSHIP POSITIONS

- 2023, Volunteer, Climate Science E-Learning Providers,as a content reviewer, created awareness about the science of climate change and its solutions, made fun accessible.
- 2018, India International Science Festival, Student Volunteer, "Science for Transformation".
- 2013-2018, Study Hall Educational Foundation (SHEF), Worked with NGOs under the Foundation supported by Obama Foundation and Volunteered in the 'Each one Teach one', initiative.

ACHIEVEMENTS INITIATIVES

- 2022 Qualified UGC-CSIR NET/JRF: AIR 19th (National level) for Earth, Atmosphere and Planetary Sciences category (for Lectureship and Junior Research Fellowship)
- 2021 Qualified Joint Admission test for Masters (JAM) :AIR 131 th : (National level) for Geology.
- 2019 Intercollege Science Model Presentation PHYSOC 360, University of Lucknow, Winner, Brownfield project on smart city.
- 2018 Study Hall Educational Foundation, Lucknow, Winner, Poetry Recitation, “Yuva Manch”.

TRAINING

- 2022, **Webinar**, NASA Applied Remote Sensing Training Program (ARSET), Participant,”Accessing and Analysing Air Quality Data from Geostationary Satellites.”
- 2021,Indian Institute of Remote Sensing, IndianSpace Research Organization (ISRO), Participant,outreach Program on Geospatial technology for hydrological modelling
- 2021, Industrial Training: Indian Institute of Tropical Meteorology (IITM) Participant, Topics: Short Range, Seasonal and Extended Range Forecast.
- 2021, Industrial Training: Indian National Centre for Ocean Information Services (INCOIS), Participant, Tsunami Forecast, Remote Sensing and GIS, Biogeochemistry of Ocean, Ocean Modelling and forecast.
